Event Objective: To raise well-needed funds to close the budget gap for quality programming in the area of STEAM education. These funds will support purchases of technology equipment and classroom and art supplies, as well as underwriting teacher training and supplemental arts instruction.

About The Peck Slip School:

Under the leadership of Principal Maggie Siena, The Peck Slip School opened in 2012 in the Department of Education headquarters at 52 Chambers Street. In 2015 the school moved to its beautiful new facility on Peck Slip. Starting with 47 kindergarteners in 2012, each year the school has added a grade, until we reach our full grade span of PreK – 5. Currently there are over 400 students in grades Pre-K through 5, with capacity for two prekindergarten classes and five classes on grades K – 5, a total of approximately 960 students. The school offers Integrated Co-Teaching classes in grades K – 4 and classes and has a full-time speech therapist and 2 part-time occupational therapists. Peck Slip students in all grades learn through long-term project-based studies of topics like seeds, birds, the Brooklyn Bridge, and the Lenape, with lessons that integrate reading, writing, history and science, while also learning basic principles of engineering. As one of only two vegetarian non-charter public schools in the nation, the school prides itself on its vegetarian lunchroom.

Thank you so much for your participation in our auction and for your generous support of our school!
